PROFESSIONAL SUMMARY

Motivated BCA graduate and Java Full Stack Developer with hands-on experience in designing, developing, and deploying secure web applications using Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, Thymeleaf, and MySQL. Built a production-grade Expense & Subscription Tracker with authentication, analytics dashboards, scheduled jobs, email notifications, and multi-format report generation. Proficient in object-oriented programming, MVC architecture, RESTful API development, SDLC, database design, and unit testing. Seeking a Software Developer role to build scalable, high-quality backend and full-stack solutions.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript, HTML5, CSS3, Python, C

Frameworks & Technologies: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Thymeleaf, Servlets, JSP, JDBC

Database: MySQL, H2 Database, SQLite

Development Tools: IntelliJ IDEA, VS Code, Git, GitHub, Maven, MySQL Workbench, Postman

Libraries: Chart.js, Apache POI, iText PDF, OpenCSV

Testing: JUnit 5, Mockito, Spring Boot Test

Core Concepts: OOP, Collections Framework, Exception Handling, JDBC, MVC Architecture, SDLC, Bean Validation, Authentication & Authorization, CRUD Operations, REST APIs, API Integration, Relational Database Design, Debugging, Code Review

PROJECTS

Automated Expense & Subscription Tracker | Java 21 | Spring Boot | Spring Security | Spring Data JPA | Hibernate | Thymeleaf | MySQL | Maven

- Developed a production-grade full-stack expense management web application using Java, Spring Boot, Thymeleaf, and MySQL following layered MVC architecture
- Designed and implemented 9 database entities, 9 controllers, 12 service classes, and 9 repositories for modular, maintainable code
- Implemented secure authentication using Spring Security with BCrypt password encryption, Remember Me, account locking, password reset, and role-based authorization
- Built complete CRUD modules for expenses, budgets, subscriptions, categories, user profiles, and settings
- Created an interactive analytics dashboard with Chart.js visualizations, spending summaries, and recent activity tracking
- Implemented automated email notifications, scheduled background jobs, and report generation in PDF, Excel, and CSV formats using Apache POI, iText PDF, and OpenCSV
- Applied Bean Validation, global exception handling, and comprehensive unit testing using JUnit 5 and Mockito

GitHub: github.com/amannizar/expense-tracker

Gym Management System | PHP | MySQL | HTML | CSS

- Developed a web-based system to manage gym operations and 50+ member records
- Implemented secure authentication and an administrator dashboard for access control
- Designed and integrated a MySQL database for efficient record management of attendance and subscription plans

EDUCATION

Bachelor of Computer Applications (BCA)

2026

Presidency College (Autonomous), Bengaluru | Aggregate: 69%

Key Coursework: Database Management, Web Technologies, Software Engineering, OOP

Java Full Stack Development

Jul 2026 - Present

QSpiders, Bengaluru

Technologies: Core Java, Advanced Java, JDBC, Servlets, JSP, Hibernate, Spring, Spring Boot, Spring Security, Spring Data JPA, SQL, MySQL, HTML5, CSS3, JavaScript, Git, Maven

CERTIFICATIONS

- Java Full Stack Development - QSpiders (In Progress)
- Cybersecurity Assessment - LearnTube
- AI Tools & ChatGPT Workshop - be10X
- SYNTAXIA 2024 - St. Joseph's University
- Career Opportunities in IT & ITES - ICT Academy

SOFT SKILLS

Problem Solving | Team Collaboration | Communication | Adaptability | Quick Learning | Analytical Thinking | Time Management

LANGUAGES

English | Malayalam | Hindi
